Stadium COVID-19 Measures

In line with the latest Government Guidance and UEFA Post-RTPP, COVID-19 passes will no longer be enforced as a condition of entry to matches.

Stadium Entry

Chelsea FC operates a 2 Stage queuing procedure (see below) to co-ordinate and moderate the flow of supporters to the turnstiles to ensure a safe entry into the Stadium.

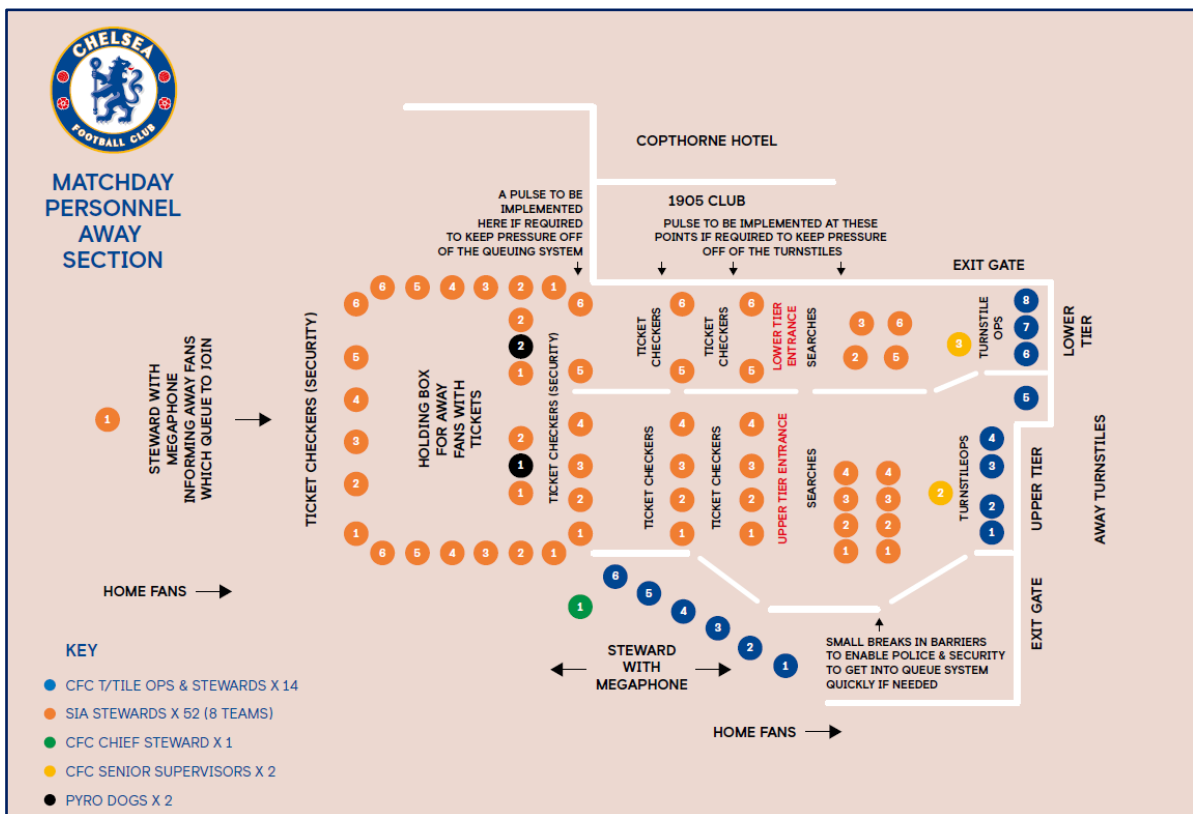

On arrival at the queuing system the following processes will occur:

- Pre-entry ticket checks
- Body and bag search
- Electronic ticket scan
- Entry through turnstile

During these procedures it may be necessary to temporarily hold supporters at cordon points to achieve a safe and steady flow through to the turnstiles.

Turnstiles will be open 2 hours (90 minutes for midweek fixtures) before kick-off, and it is advised supporters to be in their seats no later than 30 minutes before kick-off.

Please note that large numbers of Supporters arriving late cannot have an expectation of making it into the Stadium before kick-off.

Security Measures

Enhanced security measures are in place and supporters are advised to arrive early to facilitate these. It is requested supporters avoid bringing bags where possible as enhanced searches will be taking place. Please note that bags larger than A4 will not be permitted entry into the Stadium.

Please note that explosive/narcotic/pyrotechnic detection dogs will be present throughout.

Safe Standing (Barrier/Rail Seating)

Safe standing in seated areas, it should be noted, is distinct both from persistent standing in seated areas, and from safe standing in conventional terraced standing accommodation.

At Stamford Bridge in the Away Supporter Sections standing Supporters are protected from the risks of forward movement by the installation of suitably designed independent barriers in front of each seat, or by the provision of a suitably designed seats that incorporates barriers.

The design of each seat and seating row allows for free-flowing lateral movement into and out of the seating row. Safety management procedures are in place to mitigate against encroachment onto the gangways. Safety management procedures are in place to manage the numbers of Supporters entering the safe standing accommodation and safety management procedures are in place to manage the behaviour of Supporters.

Banners/Flags

There is only a limited amount of space to display banners and flags within the Stadium and they must therefore be no larger than 80cm in depth and 250cm in width. Banners and flags must not obstruct the view of others, cover advertising signs, or cause a safety hazard.

Banners and flags must not display any abusive or threatening words, images, political statements or be deemed unacceptable. Flag poles are not allowed. All banners and flags must carry a Fire Safety Certificate.

NO TO HATE

**Love Football. Protect the Game –
tougher measures against anti-social behaviour at all grounds**

While we all look forward to the new season, anyone attending our games at Stamford Bridge, should be aware that in partnership with all English football, there will be new measures and stronger sanctions against offenders in place to tackle anti-social and criminal behaviours, ensuring a safe and enjoyable match day environment for all.

At our Stadium and at all grounds in England, a new set of actions, which are backed by the Football Supporters' Association, will target activity such as entering the pitch without permission, carrying, or using smoke bombs or pyrotechnics and throwing objects – as well as drug use and discriminatory behaviour. These acts are dangerous, illegal and have severe consequences. They have no place in football, or anywhere.

At Chelsea we have long had a zero-tolerance approach to these forms of anti-social behaviour. All identified offenders will be reported to the Police and prosecution could result in a permanent criminal record, which may affect their employment and education, and could result in a prison sentence.

We have strengthened our methods of reporting abuse at the Stadium. These reports will be monitored by our Match Day Safety Team who will take immediate action and remove anyone partaking in abusive or anti-social behaviour.

Anyone who enters the pitch will receive an automatic club ban for a minimum of one year. Those identified as carrying or using pyrotechnics or smoke bombs will be banned for a minimum of three years. These bans will be extended to accompanying parents or guardians of children who take part in these activities.

There will be enhanced search regimes and increased use of sniffer dogs at grounds to detect possession of pyrotechnics and illegal drugs.

These measures reflect the seriousness of the risks to fans and staff – pyros can burn at 2,000 degrees Celsius and cause life-changing injuries, while entering the pitch endangers players, managers, and match officials – it is impossible for anyone to tell the difference between a celebrating fan and a violent attacker.

The football authorities are working with clubs and the Football Supporters' Association to make sure everyone feels safe on match days, asking all fans to come together to show that those who commit these illegal acts do not represent the majority of supporters.

The message is: **Love Football. Protect the Game.**

Wandsworth Bridge Closure

Wandsworth Council have essential maintenance works which need to be undertaken this summer on Wandsworth Bridge. The works involve hydraulically lifting the bridge to replace the bearings. As a result, we will have to close the bridge to all traffic other than pedestrians. Cyclists will be asked to dismount and walk their bicycles over the bridge.

The bridge closes on the morning of 24th July 2023 for 10 weeks. We appreciate this will cause some disruption but have intentionally targeted the summer months when traffic flows are around 20% lighter.

There is more information regarding the project on the council website www.wandsworth.gov.uk/wandsworthbridge.
